36. THE NEW BIOCO

Jack got a new job at a **biotechnology** company called Bioco. Bioco **manufactured** drugs to treat **diabetes** and high **cholesterol**. Jack's job was to use a tiny **mechanism** to get **nectar** from flowers. The nectar was a main ingredient in the drugs. Jack liked his job, and he thought that Bioco was a caring company. However, Jack soon learned that the company wasn't as kind as he first thought.

Bioco's motto was "Make the Earth a Better Place." However, this motto was **deceptive**. The company actually did a number of really bad things to the environment. The company produced a lot of smog and harmful **acid**. Bioco poured the acid in a nearby river, which caused **erosion** and made fish **prone** to illness.

After a few weeks at the new job, Jack saw all the bad things Bioco was doing. He had always had strong **ethics**, and he knew he had to do something. One day, while the Bioco workers were eating in the cafeteria, Jack stood up and gave a speech. He said, "My fellow coworkers, I know you have all seen the evil things our company is doing. I have a notion that we can fix them if we form a **coalition**. We can go to the **administration** and tell them we'll quit if they don't **eliminate** the problems. They'll have no choice but to listen to us."

Jack explained what they were to do. His coworkers liked his **explicit** plan. They went to the **administrative** offices and demanded that Bioco stop damaging the environment, or they all would quit. One supervisor said to them, "Thank you for being **straightforward** about this issue. Since I can't afford to lose all of you workers, I guess we'll just have to fix things."

Jack, his supervisor, and his coworkers spent the next month designing a new **framework** for the company. They cleaned up the acid from the river and **minimized** the amount of air pollution the company released. At last, the company motto became apt.

Bioco was a biotechnology company that manufactured diabetes and high cholesterol.

- A) TRUE
- B) FALSE

37. THE NEW BIOCO

Jack got a new job at a **biotechnology** company called Bioco. Bioco **manufactured** drugs to treat **diabetes** and high **cholesterol**.
